What Congressman R. Walton Moore Says About The Community Life Campaign

The Community Life Campaign is to be carried on in Virginia during the month of May is the outcome of the Rural Life Conference which, under the call of Governor Davis, was held in the hall of the House of Delegates at Richmond in May of last year. The addresses then delivered, which had reference to a great variety of rural conditions and needs, all stressed the enormous importance of checking the drift of population to the cities by making life in the country more attractive and profitable Emphasizing this point, Mr Wallace, the Secretary of Agriculture, not only spoke of the small returns which the farmer receives from his activities, saying "There is something wrong with a nation when prices of farm products are be low those of pre-war days, while the consumer has to pay from 75 to 100 per cent more than he did in those days", but speaking more generally, he said: "There is nothing that will cause an increase in farming except to place in the country the conveniences of education, recreation, church and social life that there are in the cities. If this country continues to let its rural districts become neglected farmers are going to continue to move to the cities. When they are all there and the backbone of the nation gone, its civilization will fall." It is hoped that the Campaign will serve to stimulate a more definite and vigorous interest in the rural life situation and knit more closely together the efforts of the agricultural, educational religious and other organizations having a common purpose. The public meetings that will be held throughout the State will afford an opportunity for the expression and interchange of helpful views on a subject which is certainly of vital interest.

Governor Trinkle has issued a proclamation calling the people together from April 23rd to May 30th in their respective communities to further this campaign.

A man was around here last week selling tomb stones and at same time working life insurance.

We have an energetic young business man in our midst who can fix any car from a Pierless to a Ford. Bring on your cars gentlemen.

My life flows on in endless song
Above Earth's lamentation;
I catch the sweet, not far off hymn
That hails anew creation.
Through all the tumult and the strife
I hear the music ringing,
It finds an echo in my soul:
How can I keep from singing.

Warehouses are Leased For Five-Year Period

On Wednesday last a large majority of the owners and operators of loose leaf tobacco warehouses of both the bright and dark markets of Virginia met the officials of the Tobacco Growers' Co Operative Association in South Boston and negotiations for the lease or sale of those warehouses to the association were entered into.

The result of the negotiations was that twenty eight of these warehousemen signed contracts to lease or sell their properties to the association, the leases being for a term of five years.

This meeting of the warehousemen and the directors of the farmers' marketing association was attended by quite a number of tobacco growers and a large number of buyers of the weed from the various bright and dark tobacco markets of the State.

It is very pleasing to note that the warehouses of this town and also Pamplin made suitable arrangements with the association to take care of all the tobacco grown in this section, which will afford the growers many conveniences.

Our Merchants!

The growth and development of any community depend to a large extent upon the character and progressiveness of its merchants.

A city chooses its merchants, for only those whom the people patronize can afford to remain in business. The man who does not "play fair" will, sooner or later, be found out and forced to quit. The honest merchant who knows his business and sticks to it is bound to succeed.

This community is fortunate in having its mercantile business in the hands of high class men. No finer body of business men can be found anywhere in the world than those with whom our people have the privilege of dealing daily.

Little Marcia's baby dress though made of the finest linen was ultimately worn threadbare. One day it landed in the rag bag and was sold to the junk dealer. When the rag sorter touched the discarded garment he detected in a flash the fine quality of the flax and set it aside for a journey to the Bureau of Engraving and Printing at Washington. Eventually it became legal tender—a bank-note. Just how is told in one of the beautiful booklets about Our Government which we are sending each month to those interested.
